Property Agreement With Linear Resources Inc.

St. John's – Altius Minerals Corporation reports that it has entered into an agreement with Linear Resources Inc (LRR.TSXV; www.linearresources.com) that allows Linear to option a 49-claim (1225 hectare) gold exploration property located near Gander in central Newfoundland.

The property is located within the Botwood Basin, an area where more than twenty junior and senior exploration and mining companies have recently acquired properties and begun exploration programs. Exploration will focus on both high-grade vein and sediment hosted (“Carlin-type”) gold targets.

Linear may earn a 100% interest in the property, subject to a 2.5% NSR and a 49% back-in option, by making payments to Altius totaling \$5,450 and 175,000 shares over a two year period.

Altius Minerals Corporation (www.altiusminerals.com) has a large and diversified portfolio of mineral exploration properties located throughout Newfoundland and Labrador. Within the past four years, Altius has completed exploration-funding agreements concerning 28 of its properties with partners that include BHP-Billiton, Teck-Cominco, Agnico-Eagle Mines affiliate Sudbury Contact Mines, Inmet Mining, Barrick Gold and Cameco.
